## **DETAILED ACTION**

### ***Priority***

Applicant is reminded that in order for a patent issuing on the instant application to obtain the benefit of priority based on priority papers filed in parent Application No. 09863442 under 35 U.S.C. 119(a)-(d) or (f), a claim for such foreign priority must be made in this application. In making such claim, applicant may simply identify the application containing the priority papers.

### ***Allowable Subject Matter***

Claims 2 and 4 are allowed over the prior art.

The following is an examiner's statement of reasons for allowance: In regards to independent claim 2, prior art discloses a bearing disposed at the center of a casing of an approximately cylindrical shape; a shaft supported by the bearing; a motor yoke which is mounted on the shaft and has an impeller at an outer periphery and a permanent magnet at an inner periphery of a stator core having a stator wire wound around and disposed inside of the permanent magnet. However, prior art fails to disclose a circuit board mounting an electronic circuit for supplying a predetermined amount of electric current to the stator wire and closely disposed to the stator wire and the stator core, wherein a case portion is closely disposed to a stator wire and said stator core, and a circuit board is housed within a case portion, in which a case portion further comprises a motor base that is integrally formed with a casing. Furthermore, a lid

member integrally formed with a bearing support member and connected to a motor base in such a manner as to cover a motor base.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
